Mark, We did receive a more user-friendly redline from Andrew Otis with this email. I thought I would forward it to you in case you or any of your team would find it useful.

Bill K.

Subject: CFAC Remediation AOC

Dear Bill,

Attached for your convenience, please find a more conventional red line comparing the draft AOC for CFAC that you sent to us versus CFAC's September 5, 2014 proposed revisions. Note that the attached red line does not contain the comments in the pdf that I sent you on September 5. I have also attached again CFAC's comments to the RI/FS/RA scopes of work so that both documents are together. Please let me know if you have any questions.

You had discussed having a conference call on November 5 or 7. As you may know, EPA issued CFAC a Request for Information under CERCLA Section 114(e) dated September 3, 2014. CFAC has a deadline of submitting information in response to that request of November 10, 2014. CFAC's staff (i.e. Steve Wright) has been very busy assembling documents to comply with the request and thus we would like to postpone the conference call until after November 10. Please let us know which dates work best for you and your group.

Again, please feel free to contact me if you have any questions or would like to discuss.

Best regards,

Andrew
